

Senior C#.NET/C++ Developer (M/F)

32-40h.

The Senior C#.NET/C++ Developer with Scrum Master skills is an independent critical thinking part of a multidisciplinary project team who likes to be in a software development environment that is both exciting and demanding. The work takes place in the south of Limburg (Eygelshoven), where revolutionary solutions in the field of video processing for international clients are being pursued. These video processing products are currently developed and have now been sold to the first customers. The next steps are professionalizing the future development, implementation and support of the product.

The tasks of the Senior C#.NET/C++ Developer will consist of further developing our video processing products using C#.NET and C++, act as a Scrum Master for a percentage of your time and coach junior developers within the multidisciplinary project team. Experience with opencv is key so that there are at least two senior developers within the DEV/OPS team. The position requires an engagement of at least 32 hours per week. The contract is initially until mid 2018, with a monthly notice period for both parties to terminate the contract.

GDO Precision Technology is located in the south of the Netherlands, close to the German and Belgian borders. GDO began as a tool builder (1899) for the mining industry and developed into a special machine builder for industrial automation and vision inspection. Over the years, the focus has been on the sectors of automotive and medical / pharmaceutical solutions, packaging, food and energy. Nevertheless, the basis remains the same in every industry, with highly precise and innovative solutions based on the quality of a toolmaker. With this knowledge, GDO is a globally operating company providing global solutions and services from its locations in the Netherlands, Germany, Ireland, Asia and the USA.

GDO is 50% owner of **TAPEMYDAY**:

TAPEMYDAY is a revolutionary means of tracking, tracing and compiling all guest's in the leisure industry highlights into one unique and irresistible film which can be simply downloaded and shared through multiple modern channels. It is a complete solution to provide attraction guests with the ultimate souvenir of a video and/or photo, increasing guest satisfaction plus driving revenues while generating additional online visits. <http://tapemyday.com>
